

MOISTURE TIN

Code : G720

- Moisture tins in engineering testing laboratories are used to hold soil or material samples during oven drying for moisture content determination. They are durable, heat-resistant, and help ensure accurate weight measurements before and after drying.

ORDERING INFORMATION

Item	Code
MOISTURE TIN, with LID - Small - Ø 55 x 35 mm	G720X001H
MOISTURE TIN, with LID - Medium	G720X002H
MOISTURE TIN, with LID - Large	G720X003H
