

CORING MACHINE

Drilling Machine

This electrical core drilling machine specially used in laboratory and site cutting core sample such as rock or other material. Features include a side guard and a drainage water outlet. A clamp provided to firmly secure the material during the cutting cycle, a sliding front allows access to the specimen clamp. The motor incorporated a water swivel to cool the diamond bit.

(Core bit order separately)

The diamond core drilling machine have function as follow :

- Safety clutch and overload protection
- Waterproof switch
- Soft Starting
- Gear speed-regulation

Technical Specifications :

Model Number	NL 4006 X / 008
Rated Input Power	4250 W
Max. Drilling Dia.	255 mm
Spindle Thread	1 inch/3P
Rated Voltage	110 / 220V
Rated Frequency	50 / 60 Hz
No-load Speed	580 (0-580)
Weight	24 KG
